

CareAttend Manual: Submitting and Approving Time & DMC

Start a Shift

A Caregiver is responsible for submitting time through the CareAttend app. These instructions are for the Caregiver. Participants do not need to download the CareAttend app. Additional instructions on how to use DirectMyCare (DMC) are also included.

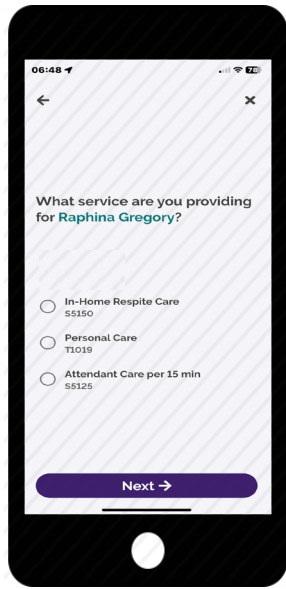

1

As the Caregiver, sign into the CareAttend App using your passcode on the unlock screen.

2

Select **"New Shift."** If you work with more than one Participant, you will need to select the Participant you are providing services for.

3

Select the type of service you are providing, then select **"Next."**

Why can't I see my Participant's name or start my shift?

There are several reasons why you may not be able to enter time for your Participant:

- **No Program Eligibility** - Check with the Participant on the status of their program eligibility. The Participant may need to contact the entity that authorizes their services.
 - **Expired Caregiver Credentials** - You can update credentials by emailing copies of new credentials to Consumer Direct, if required by the program.
 - **Expired Authorization** - The Participant will need to check for expired authorizations in DirectMyCare.com by signing in and selecting View Authorization. View Authorization
- If they have not yet activated their email address for DirectMyCare.com, instructions for how to do so can be found on your program's training materials page.
- **Grace Period Exceeded** - The system cannot accept shifts that are past the payor's deadlines. Please contact Consumer Direct to determine if the time you're trying to enter is past the grace period.

I forgot to clock in/ I clocked in late

If you clocked in late, you can **make adjustments** to your start time before submitting your shift (steps 5 -8). For instructions on how to delete a shift or submit a shift that happened in the past (late shift), please visit your program's training materials page.
